Introducing

Premium bathing luxury

WELCOME
TO THE WORLD OF

Vibrant

FINISHES

Ideal Orient is proud to be one of the only Faucet manufacturing company in the country with an inhouse **PVD Plant** which offers you various finishes to choose from.

Our PVD faucets are designed in a way to escalate your bathing experience to a different level all together. The PVD coatings are highly resistant to tarnishing and corrosion.

What is PVD ?

PVD (physical vapor deposition) coating, also known as thin-film coating, is a process in which a solid material is vaporized in a vacuum and deposited onto the surface of a part. These coatings are not simply metal layers though. Instead, Compound materials are deposited atom by atom, Forming a thin, Bonded, Metal or metal - ceramic surface layer that greatly improves the appearance, Durability, And/or function of a part or product.

Rapid Response

When the cold water supply is suddenly interrupted, the control device will react quickly and automatically shut off the mixed effluent function to prevent scald.

Precise Temperature Control

Designed with gear reduction tuning structure, comfortable operation

Cool Touch Technology

The Cool Touch Technology increase the security, ensure users won't be scalded by hot surface of body.

Safety Lock Technology

Built-in 38°C safety lock to prevent misuse and avoid burns.

Water Temperature Stability

Even if water pressure fluctuates or the hot water temperature is too high, the outlet temperature of the constant temperature faucet will remain constant and enjoy a comfortable bath.

Hot And Cold Water Control

Preserving the maximum care to details, leading technology enables adjusting temperatures freely by turning.
